SOUTHWEST HERITAGE BANK

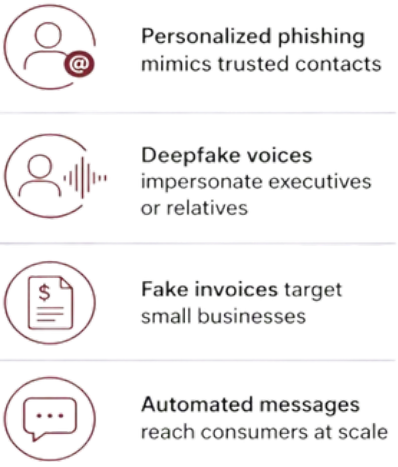

Artificial Intelligence and Fraud 2026

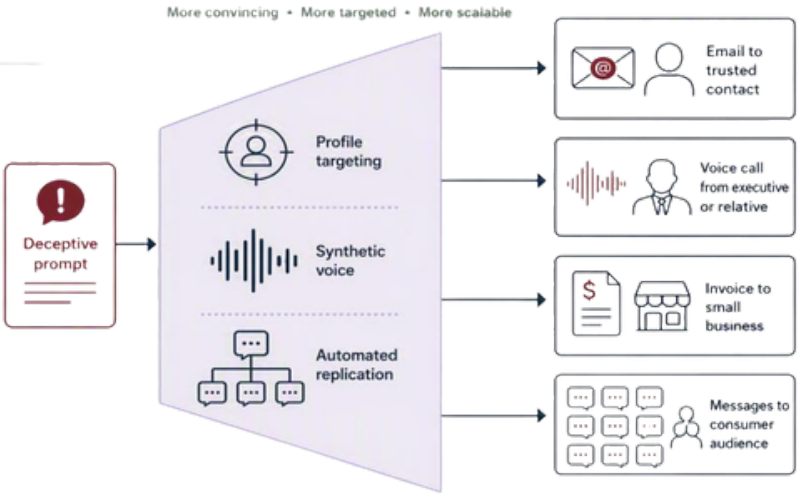

WHAT IS ARTIFICIAL INTELLIGENCE?

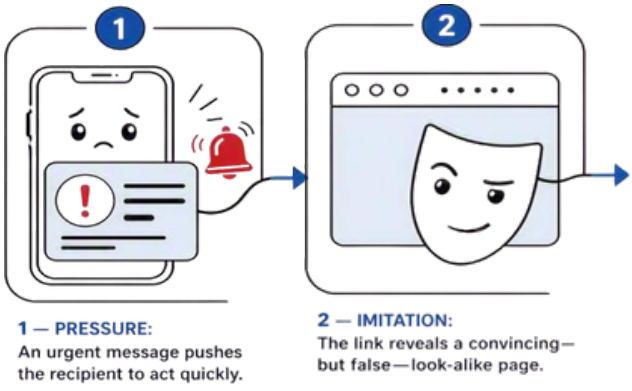

Artificial Intelligence refers to computer systems that can preform complex tasks normally done by human reasoning, decision making, creating, etc. (Source: NASA)

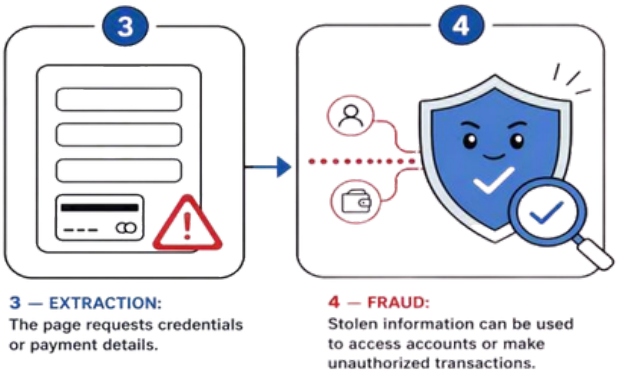

Quality of AI has improved causing criminals easier access to tools.

The risk of fraud has increased significantly due to the use of AI by criminals. AI generated content has become harder to distinguish from real content.

A quick safety check before you click, reply, or approve.

1. Check the full web address carefully.
2. Question urgency and unusual requests.
3. Never approve unexpected security prompts.
4. Contact the bank through a verified channel.

When in doubt, stop and verify.

To learn more about some of the most common frauds and scams that the FBI encounters, as well as tips to help you stay safe and what to do if you're a victim, you can visit:
